

## WELL Precision Vertical Diamond Wire Saw

**AGB8570** 

AGB8570 WELL precision Vertical Diamond Wire Saw (model 6500) is the most universal. Compact and easy to use, it can meet the needs of industrials as well as laboratories. Very often, it avoids a lengthy and costly polishing job.

The proven and much sought-after Well cutting principle is integrated, for cutting medium-sized samples (300 mm in height, 300 mm in width). To cut small parts, the wire guide rollers can be lowered as close as possible to the sample. In addition, optional micrometric tables are supplied when cutting accurate slices is needed.

Since the patented diamond embedded wire, of approximately 30 metres in length, travels in both a forward and reversing direction, the sample must be firmly secured to the worktable. The tension on the wire on the "T-slotted" table can be adjusted with the tensioning mechanisms supplied with the saw.

An electronic protection device is installed at the heart of the machine for a longer lasting wire. If the cutting pressure on the wire is too high, a warning will be displayed on the screen. With this new technology, even very fine wires can be installed.

An electronic ruler is installed underneath the work table. It is used to display the cutting progress on screen. You can also simply modify the parameters to use it as a depth-of-cut stop allowing you to adjust the stop of the machine precisely.

With its sleek design, it is easy to maintain and use. With the semi-automatic wire winding system combined with the latest drum technology, replacing the wire is staggeringly simple. Work table with motorised feed available upon request.

## **Main Specifications**

• Cutting feed: Gravity (+/- 2000g)

Electric motor: 240W
 Machine control: Touch Screen LCD 7" – 1024 x 600 Pixel

Drum diameter: 314mmPullevs diameter: 314mm

• Possible wire diameter: 0.13 - 0.50mm

• Wire length: 30 m

Wire speed: 0 - 2.5 m/s
 Wire Ø 0.22 - 0.3mm tension: 2kg

• Wire Ø 0.10 – 0.17mm tension: 1kg

Cleaning of wire:
 With cutting liquid diluted 5% or water

Max. sample weight: 15kg
Mobile sample table dimensions 400 x 370mm

Electronic ruler for depth of cut stop
Automatic Winding System
Protection Wire System
Yes
Yes

Max sample dimension:
 H300mm x B300mm − Ø 300 mm

Primary voltage;
 230V-110 / 50-60 Hz

Machine weight without accessories: 105kg
Overall dimension: 650 x 480 x 1200 mm (L x D x H)

Example of accessories (other on demand)

USB Professional Microscope with WiFi streaming

Clamping flanges for large samples

Standard sample holder

CF Certification

Turn table

Micrometer table

X-Y table
